# Elevate Your Project Delivery Capabilities

Grappling with the complexities of combining Agile project management and Scrum? You're not alone.

Organizations and project professionals face challenges, such as unclear roles, inefficient processes, and suboptimal project outcomes. That's where AgilePM for Scrum comes in. This certification provides you with a full project lifecycle framework to achieve unparalleled project success in volatile, uncertain, complex, and ambiguous environments across all industries and functions.

## Key Benefits

### **Clear Alignment:**

Merge Agile project management principles seamlessly with Scrum practices.

### **Enhanced Collaboration:**

Boost communication and collaboration among project stakeholders.

### **Scalability and Adaptive Planning:**

Achieve scale and stay agile with improved planning mechanisms that adjust to shifting requirements.

### **Boost Transparency:**

Ensure complete visibility into project evolution and progress.

### **Value-Driven Outcomes:**

Utilize AgilePM and Scrum techniques to save time and deliver value-driven outcomes.

# Leverage the Ultimate Synergy for Project Success

Your AgilePM for Scrum experience

## **In-Depth Curriculum:**

Learn directly from the pioneers of Agile project management and Scrum. Our course content is uniquely designed to give you a deep understanding of how AgilePM and Scrum can be harmoniously integrated for maximum project success.

## **Comprehensive Framework**

This isn't just a certification; it's a comprehensive framework that bridges the gap between Agile project management and Scrum, enabling organizations to effectively navigate complex projects.

## **Hands-On Experience**

Through real-world case studies and interactive activities, you'll gain practical skills to navigate complex projects with agility, adaptability, and flexibility.

## **Community & Networking**

Become part of a global network of over 200,000 highly successful Agile Professionals. Connect, share, and learn from the best in the industry, to position yourself for success.

# We love our community. And they love us too.

“Scrum has its strengths, but understanding its place within effective project management is crucial. The AgilePM for Scrum course and certification illuminate this relationship. For those who believe in a harmonized approach, this course offers practical guidance, combining the best of Scrum with proven Agile project management techniques.”

**Dr. Nik Silver,**  
Interim CTO, coach, mentor

“Balancing the dynamics of software development is challenging. The simplicity of Scrum is beautiful, yet gaps exist. The AgilePM for Scrum course and certification provide the answers which enhances your chances of success.”

**Rachel Davies,**  
Author of Agile Coaching
